

base.js

```
1  /* global bootstrap */
2
3  /**
4   * Display a Bootstrap toast message on page load.
5   *
6   * This script waits for the DOM to fully load, retrieves the toast element
7   * by its ID, initializes it using Bootstrap's Toast component, and displays it.
8   */
9
10 document.addEventListener("DOMContentLoaded", function () {
11     var toastEl = document.getElementById("toastMessage");
12     var toast = new bootstrap.Toast(toastEl);
13     toast.show();
14 });
```
